

1. Basic system requirements to apply for IEC online

- Operating System
 - Windows 7 or newer
- Java Runtime Environment(JRE)
 - 1.8.x or newer
- Web browser
 - Internet Explorer 10 or newer (Or) Latest version of Microsoft Edge/Google Chrome/Mozilla Firefox
- JavaScript should be enabled
 - Settings are provided in **Browser wise Configuration** for each browser
- Digital Signature
 - USB support for token and corresponding drivers to be installed on system
 - **Installation/Updation of PKI Setup(For all browsers)** to use digital signature
 - To allow certification selection pop up, follow instructions in **Browser wise Configuration**

2. Installation/Updation of PKI Setup(For all browsers).

- **Step 1:** Latest of version of PKI Setup can be downloaded by clicking on [nCodePKIComponent_Setup.exe](#).
- **Step 2:** Install/Run the nCodePKIComponent.exe downloaded

Note :=> If **Digital Signature pop up** does not appear after clicking on **Sign in Submit** button while applying, It means that validity of **nCodePKIComponent_Setup.exe** already installed on the system might have been expired. In such cases :

- **Step 1:** Uninstall the existing **nCodePKIComponent_Setup** by clicking on **uninst.exe** from the nCodePKIComponent_Setup folder, Generally found at(C:\Program Files (x86)\nCodePKIComponent)
 - Do check if nCodePKIComponent_Setup folder is deleted after clicking on **uninst.exe**, Manually delete the nCodePKIComponent_Setup folder if it still exists.
- **Step 2:** Download the latest version of PKI Setup by clicking on [nCodePKIComponent_Setup.exe](#) and Run/Install the same.
